LineGame User Manual

How to install LineGame:
1) Find the app on the app store (Search LineGame)
2) Download the app, and wait for it to install

How to use LineGame
3) Once installed launch the app by tapping on its icon
4) When the menu loads click "Play Game" button
5) Play the game by dodging the obstacles by tapping the left and right of the screen
6) When the game ends the end game screen will present you with two buttons, "Play Again" or "Main Menu"
7) Back at the main menu you can also click on the high scores button which will bring you to a display screen with high scores across the server

How to uninstall LineGame
1) Delete like any other application

LineGame is a project and will not be perfect, while we have done our best to minimize bugs we're sure that our tests will not have been as thorough as what all the users will put it through. If you encounter a bug, first try restarting/resetting the app, and let us know of the bug.
